Wella Bars are organic protein bars made from whole foods selected for freshness and quality.

Their goal is simple - keep it real and make it fresh. Made fresh to order each week, they carefully roast and grind their nuts to creamy perfection in small batches and lightly sweetened with fragrant honey.

A portion of sales of Wella Bars goes to fund research to enhance the health and **vitality of honey bees.**

Tate's Bake Shop cookies started when 11 year old Kathleen King began baking cookies to sell at her family's farm stand in Long Island. Today, those amazing cookies have attracted a loyal following from coast to coast.

Tate's Bake Shop cookies are crisp and buttery, rich but not overwhelming. They simply melt in your mouth and one is never enough.
