## Whole Bean Coffee and Pods

- Doi Chaang Coffees uses world class Arabica beans grown at high altitude in the remote Doi Chaang village of Northern Thailand.
- Doi Chaang Coffee is 100% natural and at no time are chemicals used on the coffee plants or beans.
- Doi Chaang aims to create direct relationships with coffee farmers and enable them to achieve a sustainable and economically stable standard of living.
- Aromacups are 99% biodegradable so consumers don't have to feel guilty when brewing with pods.
